Subject: West Volusia Water Suppliers Transient Groundwater Model

BACKGROUND: On October 28, 2008, City Council approved Resolution 507-08 authorizing the Interim City Manager to enter into an agreement with the City of Deland, the City of Deltona, and Volusia County for the purpose of creating a Transient Groundwater Model. This model was needed to update the static model that has been the accepted "norm" used by the Saint Johns River Water Management District (SJRWMD) since 1995.

This discussion item is being presented in order to update City Council as to the status of the model and the implications thereof.
