Resolution No. 642-11

Shadow Ridge Phase 2 Site Plan Conditions

Condition No. 1 – Street Lighting

The applicant shall resubmit a street lighting plan which correctly depicts the location of the light poles behind the sidewalk, which is between the sidewalk and the building lots, and not between the sidewalk and the road pavement. The street lighting shall consist of full cutoff fixtures.

Condition No. 2 – Tree Requirements

As each lot is constructed, the builder shall meet the tree ordinance requirement at that time for that specific lot, including an underground landscape irrigation system. Following clearing of the property, the Tract areas must be cleared of underbrush and dead trees and an inventory of remaining trees provided to staff to assure compliance with the tree requirement.

Condition No. 3 – Park Requirements

The applicant shall provide park equipment specifications for approval by staff to assure quality equipment sufficient to meet the needs of the families who will be living within the subdivision.

Condition No. 4 – Compliance with New Ordinance

Prior to construction of the infrastructure, the applicant shall comply with Ordinance No. 355, adopted on June 10, 2008, and Ordinance No. 406 adopted on October 13, 2009, said two ordinances requiring compliance with the National Pollutant Discharge Elimination System.

In accordance with Section 5.6.1 of the City's land development code regarding minor modifications, Staff recommends the following two conditions be added to the extension of the development order for the Shadow Ridge Phase 2 site plan.

Condition No. 5 – Housing Criteria

Each single family dwelling unit shall be a minimum of 1,650 square feet with a 2 car garage and façades facing any street shall be constructed with at least 80 percent of materials consisting of brick, natural stone, architectural cast stone, hardcoat, stucco or other durable materials approved by the Development Services Director consistent with the attached elevations. Elevations shall also be provided at the time of building permit

that allows for visual variety along the streetscape within the subdivision and features traditional elements such as dormers, front porches, arched windows and columns. In order to create a varied and interesting street scene the Development Services Director may consider elevations that incorporate architectural enhancements such as shutters, articulation in roof forms, varied wall planes, changes in materials, decorative details and siding on elevations, as well as window and door trim, the use of arched entries and extended porches. Elevations shall be reviewed and approved by the Development Services Director to ensure consistency with those attached to provide a cohesive character. The garage and front doors shall be distinct and compatible with the architectural style of the home.

Condition No. 6 – Landscaping

Landscaping shall be incorporated into the lots of each dwelling unit and be submitted with elevations at time of building permit. Landscaping shall be designed to enhance the streetscape and architectural styling of the proposed elevation and will be approved by the Development Services Director. Landscaping shall be installed prior to the issuance of the certificate of occupancy and guaranteed for one year after installation by permittee. Examples of landscaping may include foundation plantings, trees, landscape islands, and hardscaping.
