12 Migdalia Hernandez, Public Works Director, discussed a PowerPoint presentation (a copy of which is  
13 attached and becomes a permanent part of these minutes). Ms. Hernandez reported that on February 25,  
14 2011, the City entered a Memorandum of Understanding (MOU) with the cities of DeBary, DeLand,  
15 Deltona, Lake Helen, and the County of Volusia to provide water resources management in West Volusia.  
16 She noted that the parties involved recognized that a new confederation of water suppliers in West Volusia  
17 County was critical to coordinating future use of existing water and the development of new water  
18 supplies, on a regional basis.

19  
20 In 2014 the City entered into an agreement with the Cities of DeLand, Deltona and the County of Volusia  
21 (the Suppliers), to install reclaimed water interconnects at a maximum construction cost of \$4,670,000.  
22 A 40% cost-share grant was obtained from the St. John's River Water Management District (SJRWMD)  
23 and the group was responsible for 60% of the construction costs.

24  
25 The Reclaimed Water Interconnect project was completed in 2015 and the 60% construction costs were  
26 paid. However, because the City was a part of the project, the Suppliers are requesting that Orange City  
27 be a party to the maintenance agreement. The City will not be responsible for any of the maintenance  
28 costs of interconnect lines or meters and will continue to purchase wholesale reclaimed water from the  
29 County under a 1989 agreement.

30  
31 Ms. Hernandez stated that staff recommends Council approve the Interlocal Agreement for the Operation,  
32 Administration and Maintenance of Reclaimed Water Interconnects.

45 part of these minutes). She noted that the Florida Department of Environmental Protection (FDEP),  
46 Division of Water Restoration Assistance allocated funding for Spring Restoration, including funding for  
47 Blue Spring in Volusia County. The FDEP approved grant funding in the amount of \$259,808 for the  
48 City's sewer collection system expansion from the Spring Restoration funding for FY 17/18. This grant

1 funding will be used to offset the costs for the CRA Holly Avenue infrastructure improvement project,  
2 which will be funding through State Revolving Fund (SRF) Loan Agreement No. WWW642030.
